TECHNICAL SHEET

DISPOSABLE CLOTHING

POLIFILM labcoat polypropylene

MC51Z0K1

MATERIALS
Polypropylene

WEIGHT
30 g/m²

DETAILS
- Not waterproof, ensuring breathability and a lightweight fit;
- Breathable, comfortable for extended wear.

CLOSING
Four snap fasteners.

FEATURES
Disposable coat made of polypropylene, a lightweight and breathable fabric, ideal for ensuring comfort during prolonged use. It is not waterproof, thus ensuring good ventilation and reducing the sensation of heat. The front button closure allows for a practical and adjustable fit, which remains stable and facilitates its donning and removal. It is designed for environments where protection from dust and contamination is required, without the need for a liquid barrier.

AVAILABLE COLOURS
◯ K1 - WHITE
