TECHNICAL SHEET

LOW TEMPERATURE GARMENTS

THERMO bodywarmer

MC5316QV

MATERIALS

High-frequency bonded fabric, seamless, 100% polyester.

WEIGHT

Padding 120 g/m²

FEATURES

Work vest made from high-frequency bonded fabric, a technology that allows for seamless construction, improving thermal insulation and reducing stress points for increased durability and comfort. It ensures high resistance to heat loss, contributing to cold protection down to temperatures of -5°C. The high collar, lined with fleece fabric, offers effective protection against the cold, retaining warmth in the most sensitive areas. The 2 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The elasticated armhole and hem profiles ensure a snug and comfortable fit, improving freedom of movement and heat retention. Windproof Softshell inserts reinforce the most exposed areas, offering an effective barrier against the elements.

DETAILS

- Thermal vest with a high, fleece-lined collar for enhanced protection of the front cervical area;
- 2 lower pockets for storing small daily essentials;
- Armhole and hem edges in elasticated fabric for an ergonomic and secure fit;
- Windproof Softshell inserts reinforce the most exposed areas, providing an effective barrier against the elements.

CLOSING

Front zip.

AVAILABLE COLOURS

- K1 - WHITE
- QV - NAVY/BLACK
- R6 - GREEN
- S0 - GREEN
