

LOW TEMPERATURE GARMENTS

FREEZER coverall

MC5347

MATERIALS

100% Nylon Oxford 420 D coated and Thinsulate 3M padding.

GRAMMAGE

350 g/m²

FEATURES

Work coverall designed to offer maximum thermal protection, ideal for tackling extreme temperatures. Certified to provide protection down to -60°C, ensuring comfort and safety even in the harshest conditions. Practical and warm, it does not restrict the wearer's freedom of movement, thanks to an ergonomic design that promotes mobility. The thermal insulation keeps the body warm and dry, retaining body heat while simultaneously allowing moisture to escape, for extended comfort. The neck closure features double Velcro and a concealed flap, while the inside of the collar is lined with soft microfleece to provide warmth and comfort. Its 5 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The design includes knee pad pockets closed with Velcro. For additional protection, the coverall is equipped with lumbar protection and elasticated knit cuffs, which ensure a comfortable and snug fit. The leg bottom is adjustable via a zip, covered by a flap and secured with Velcro, to suit the wearer's requirements. Every detail is designed to combine functionality, durability, and comfort in a practical and versatile garment.

DETAILS

- Collar closure with double velcro and retractable flap, for additional and effective protection of the anterior cervical area;
- Collar interior in microfleece, for a pleasant sensation of warmth and softness on the cervical area;
- Internal pocket closed with velcro, for storing small valuables;
- Knee pad pockets, closed with velcro, compatible with KGUARD - MC4913 kneepads;
- Kidney cover in elasticated knit, for additional protection to the lumbar area;
- 2 lower pockets closed with flap and velcro, for quick access to small everyday items;

- 2 chest pockets in contrasting color closed with velcro, the right one with a pen holder;
- Cuffs in elasticated knit, for a snug fit at the wrists, contributing to maintaining thermal comfort;
- Adjustable leg bottom with zipper covered by flap and closed with velcro, for an ergonomic and adjustable fit, to prevent external weather elements from entering.

CLOSING

Two-way zip covered by a flap and buttons.

REFLEX

Piping inserts. Grey and yellow inserts.
