

FLAME RETARDANT SERIES

FLAME RETARDANT bib-trousers

MC5413

MATERIALS

100% cotton with flame retardant treatment.

GRAMMAGE

315 g/m²

FEATURES

Work bib-trousers made from a multi-purpose fabric with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. They offer integrated protection from flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The 100% cotton fabric with flame-retardant treatment helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The 3 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The elasticated shoulder straps, together with the elasticated back, allow for high freedom of movement for the operator during work activities.

Please follow the recommended washing instructions.

QUANTITY PER CARTON

20

CATEGORY

II -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.

DETAILS

- Elasticated straps with metal buckles, for a comfortable and easily adjustable fit;
- Side technical pockets with flap and Velcro closure, allow storing bulkier items without the risk of them falling out;
- Right back pocket;
- Back elastic, allowing maximum freedom of movement without restrictions;
- Waist metal snap buttons at the hip;
- Double stitching in areas most subject to stress and wear, for increased strength and durability.

CLOSING

Metal zip covered by a flap.

IMPORTANT

The coverall is certified in combination with the Flame Retardant Jacket MC5414.
