<b>Name: POLYTECH jacket</b>	<b>Code: MC5714Q5</b>	<b>MC57 CLOTHING - POLYTECH SERIES</b>
------------------------------	-----------------------	--

Jacket in 75% cotton, 24% polyester, 1% antistatic fibre fabric, weight 280 g/m . It features a Chinese collar with Velcro for neckprotection, concealed front zipper closure with metal snap buttons, two chest pockets with flaps and Velcro, elastic cuffs, military style epaulettes on shoulders, reflective piping on the chest.

THE JACKET SHALL BE WORN IN COMBINATION WITH THE BIB-  
TROUSERSOR  
TROUSERS.

- The Polytech series is made with a multi-purpose fabric that combines antistatic properties with resistance to flames, heat and chemical products.
- Thanks to its features it is multi-purpose, practical and resistant, breathable and comfortable.

The product is designed and manufactured to comply with the requirements of Regulation (EU) 2016/425 and subsequent amendments.

In combination with the jacket it is possible to wear our under garments: Carboflame undershirt art. MC5610 and Carboflameunderpants art. MC5620, meeting the point A.2 of IEC 61482-2 which is stating that the electric arc protective clothing shall be used with under garments made of materials that would not melt with the arc.

Petrochemical Industry, Metalworking Industry, Refining Industry, Chemical Industry, Industrial Maintenance and Assemblies, Gas, Water and Electricity Mains Maintenance and Management, Oil & Gas industry.

Keep in a cool dry place, far from heat sources and direct light.

Make sure the garment is in good condition, undamaged and clean before use. Once you become aware of a damage, you should immediately replace it.

We recommend to follow the washing instructions. Wash separately from other types of garments to avoid the transfer of inflammable fibres.
