

POLYTECH SERIES

POLYTECH 360 jacket

MC5724

MATERIALS

80% cotton, 19% polyester and 1% antistatic fiber.

GRAMMAGE

355 g/m²

FEATURES

Work jacket made of multi-purpose fabric, with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments, where exposure to multiple hazards is constant. It offers integrated protection from flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment also guarantees protection against limited splashes of liquid chemicals. Antistatic properties and effectiveness in containing the energy released by an electric arc up to 4 kA complete the jacket's safety profile. The high percentage of cotton, combined with technical fibers, contributes to perfectly balancing protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The fabric, characterized by a higher grammage, offers greater wear resistance and an effective barrier against cold, making the garment suitable even for harsher climatic conditions. The mandarin collar, without protruding points or flaps, effectively protects the cervical area from heat, splashes, and external agents, while simultaneously reducing the risk of getting caught in machinery or equipment. The 4 pockets make it extremely functional and practical, allowing essential tools and objects to always be within reach during work. The reflective inserts positioned on the chest increase the operator's visibility, improving safety during work activities. The elasticated cuffs ensure a snug fit at the wrist, hindering the entry of dust, debris, splashes, and chemical agents into the sleeve.

DETAILS

- Mandarin collar with velcro closure, effectively protects the neck area from potentially harmful external agents;
- 2 chest pockets covered by a velcro-closure flap, to ensure quick and convenient access to smaller items;
- 2 lower pockets with flap and velcro closure;

- Elasticated cuffs, prevent the entry of dust, debris, splashes, or chemical agents inside the sleeve;
- Double stitching in areas most subject to stress and wear, to ensure greater strength and durability.

- > Petrochemical industry
- > Logistics
- > Tertiary - trades

CLOSING

Central zip closed by a flap and snap buttons.

REFLEX

Reflective inserts on the chest.

REMARKS

Given the current mixed stock, it is possible that this item will be delivered with the restyled version (as shown in photo) and former version.

IMPORTANT

The jacket is certified in combination with the Polytech 360 trousers MC5721 or the Polytech 360 bib-trousers MC5723.

AVAILABLE COLOURS

- Q5 - Dark blue

SIZES

- In stock
- On production
- Made to order
- Tailor made

FIELDS OF USE

- > Construction - road works
- > Chemical-pharmaceutical industry

MAINTENANCE

Please follow the recommended washing instructions.

QUANTITY PER CARTON

20

CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
