

POLYTECH SERIES

POLYTECH MAX 2/1 trousers

MC5753

MATERIALS

Twill 80% cotton, 19% polyester, 1% conductive fiber. 75% cotton, 24% polyester, and 1% antistatic fiber.

GRAMMAGE

Front 495 g/m², rear 280 g/m².

FEATURES

Work trousers made from a versatile fabric with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. They offer integrated protection from flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment also guarantees protection against limited splashes of liquid chemicals. Antistatic properties and effectiveness in containing the energy released by an electric arc up to 7 kA complete the safety profile of the trousers. The high percentage of cotton, combined with technical fibers, contributes to perfectly balancing protection and comfort; the high fabric weight of the garment's front part helps ensure superior structural robustness and mechanical resistance, while maintaining a good level of breathability, essential for the operator's comfort during work activities. The use of a lower grammage fabric in the garment's back part contributes to improving its overall lightness, without compromising protective performance against heat generated by an electric arc. The 3 pockets make it extremely functional and practical, allowing essential tools and items to always be within reach during work. Reflective inserts on the back, on the flap of the technical pocket, and on the waist button cover provide greater visibility to the operator, making the garment suitable for wear even in low-visibility situations.

DETAILS

- 2 side pockets with flap and velcro closure, ensuring quick and easy access to smaller items;
- Left technical pocket with flap and velcro closure allows for storing bulkier items without the risk of them falling out;
- Double-interlocked seams in areas most subject to stress and wear, to ensure greater strength and durability.

CLOSING

Zip and button.

REFLEX

Reflective inserts on the back and technical pocket flap.

IMPORTANT

The trousers are certified in combination with the Polytech Max 2/1 jacket MC5754.

AVAILABLE COLOURS

- Q5 - Dark blue

SIZES

	In stock
	On production
	Made to order
	Tailor made

FIELDS OF USE

- > Construction - road works
- > Chemical-pharmaceutical industry
- > Petrochemical industry
- > Logistics
- > Tertiary - trades

MAINTENANCE

Please follow the recommended washing instructions.

QUANTITY PER CARTON

20
