

POLYTECH SERIES

POLYTECH jacket with bands

MC5764

MATERIALS

75% cotton, 24% polyester and 1% antistatic fiber.

GRAMMAGE

280 g/m²

FEATURES

Work jacket made from multi-purpose fabric, with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. It offers integrated protection from flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment also guarantees protection against limited splashes of liquid chemicals. Antistatic properties and effectiveness in containing energy released by an electric arc up to 4 kA complete the jacket's safety profile. The high percentage of cotton, combined with technical fibers, contributes to perfectly balancing protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The mandarin collar, free of points or protruding flaps, effectively protects the cervical area from heat, splashes, and external agents, while simultaneously reducing the risk of entanglement in machinery or equipment. The FR reflective bands sewn on the sleeves and shoulders contribute to increasing operator safety in environments characterized by poor lighting or reduced visibility. The 4 chest pockets make it extremely functional and practical, allowing essential tools and objects to always be within reach during work. The reflective inserts positioned on the chest increase operator visibility, improving safety during work activities. The elasticated cuffs ensure a snug fit at the wrist, preventing the entry of dust, debris, splashes, and chemical agents into the sleeve.

DETAILS

- Mandarin collar closed with velcro, effectively protects the cervical area from potentially harmful external agents;
- 2 chest pockets covered by a flap closed with velcro, to ensure quick and convenient access to smaller items;
- 2 lower pockets covered by a flap closed with velcro;

- Elasticated cuffs, prevent the entry of dust, debris, splashes or chemical agents inside the sleeve;
- Double stitching in the areas most subject to stress and wear, to ensure greater resistance and durability.

CLOSING

Zip covered by a flap with metal snap buttons.

REFLEX

Double FR reflective band on sleeves and shoulders. Reflective inserts on the chest.

IMPORTANT

The jacket is certified in combination with the Polytech trousers with bands MC5763.

AVAILABLE COLOURS

- Q5 - Dark blue

SIZES

	In stock
	On production
	Made to order
	Tailor made

FIELDS OF USE

- > Construction - road works
- > Chemical-pharmaceutical industry
- > Petrochemical industry
- > Logistics
- > Tertiary - trades

MAINTENANCE

Please follow the recommended washing instructions.

QUANTITY PER CARTON

20

CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
