

## SUPERTECH SERIES

# SUPERTECH jacket

### MC5914

#### MATERIALS

75% cotton, 24% polyester, 1% antistatic fiber.

#### GRAMMAGE

280 g/m²

#### FEATURES

Work jacket made from versatile fabric, with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. It offers integrated protection against flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment also guarantees protection against limited splashes of liquid chemicals. Antistatic properties and effectiveness in containing the energy released by an electric arc up to 4 kA complete the jacket's safety profile. Certified Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The high percentage of cotton, combined with technical fibers, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising durability and mechanical strength. The mandarin collar, free of pointed tips or protruding flaps, effectively protects the neck area from heat, splashes, and external agents, while simultaneously reducing the risk of entanglement in machinery or equipment. The 3 pockets, including the internal one, make it extremely functional and practical, allowing essential tools and items to always be within reach during work. The elasticated cuffs ensure a snug fit at the wrist, preventing the entry of dust, debris, splashes, and chemical agents into the sleeve. The reflective bands sewn on the sleeves and waist, and the reflective inserts on the chest, contribute to increasing the operator's visibility, improving their safety during work activities.

#### DETAILS

- Mandarin collar with velcro closure, effectively protects the neck area from potentially harmful external agents;
- 2 chest pockets with flap and velcro closure, to ensure quick and convenient access to smaller items;
- Elastic cuffs, prevent the entry of dust, debris, splashes, or chemical agents into the sleeve;
- Internal wallet pocket, to securely store small valuables;
- Double stitching in high-stress and wear areas, for increased strength and durability.

#### CLOSING

Central two-way zip, covered by a flap with metallic snap buttons.

#### REFLEX

Double reflective bands on sleeves and waist. Reflective inserts on the chest.

#### IMPORTANT

The jacket is certified in combination with the Supertech trousers MC5911.

#### AVAILABLE COLOURS

 ED - Hi-vis yellow/blue

#### SIZES

 In stock  
 On production  
 Made to order  
 Tailor made

#### FIELDS OF USE

- > Construction - road works
- > Chemical-pharmaceutical industry
- > Petrochemical industry
- > Logistics
- > Tertiary - trades

#### MAINTENANCE

Please follow the recommended washing instructions.

#### QUANTITY PER CARTON

20

#### CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
