

## SUPERTECH SERIES

## SUPERTECH STRETCH jacket

MC5944

### MATERIALS

74% cotton, 22% polyester, 3% elastane, 1% antistatic fiber.

### GRAMMAGE

280 g/m²

### FEATURES

A work jacket made from multi-purpose fabric with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. It offers integrated protection against flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment also guarantees protection against limited splashes of liquid chemicals. Antistatic properties and effectiveness in containing energy released by electric arc up to 4 kA complete the jacket's safety profile. Certified to Class 3 for high visibility, the garment ensures the highest level of visibility in daylight and nighttime conditions, even in the presence of artificial lighting such as vehicle headlights. The garment's stretch fabric composition ensures high elasticity and freedom of movement, optimizing ergonomics and operational comfort during work activities. The high percentage of cotton, combined with technical fibers, contributes to perfectly balancing protection and comfort, making the garment soft and breathable without compromising robustness and mechanical resistance. The mandarin collar, free of points or protruding flaps, effectively protects the cervical area from heat, splashes, and external agents, while simultaneously reducing the risk of entanglement in machinery or equipment. The chest pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The elasticated cuffs ensure a snug fit at the wrist, preventing the entry of dust, debris, splashes, and chemical agents into the sleeve. The reflective bands sewn on the sleeves and chest, in addition to the reflective inserts on pocket flaps and shoulders, contribute to increasing operator visibility, improving their safety during work activities.

### DETAILS

- Mandarin collar with velcro closure, effectively protects the neck area from potentially harmful external agents;
- 2 chest pockets with contrasting flap and velcro closure, to ensure quick and convenient access to smaller items;
- Loop for gas detector on the right;
- Elasticated cuffs, prevent the ingress of dust, debris, splashes, or chemical agents into the sleeve;
- Double stitching in areas most subject to stress and wear, for increased strength and durability.

### CLOSING

Zip covered by a Velcro-fastened flap.

### REFLEX

Double reflective bands sewn on arms and around the chest. Reflective inserts on chest pocket flaps and back yoke.

### IMPORTANT

The jacket is certified in combination with the Supertech Stretch trousers MC5942.

### AVAILABLE COLOURS

 ED - Hi-vis yellow/blue

### SIZES

 In stock  
 On production  
 Made to order  
 Tailor made

### FIELDS OF USE

- > Construction - road works
- > Chemical-pharmaceutical industry
- > Petrochemical industry
- > Logistics
- > Tertiary - trades

### MAINTENANCE

Please follow the recommended washing instructions.

### QUANTITY PER CARTON

20

### CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.
