

MICROLINES SERIES

MICROLINES trousers

MC6011

MATERIALS

98% PU coated polyester, 2% dissipative fiber, lining 100% FR cotton.

GRAMMAGE

260 g/m², lining 230 g/m².

FEATURES

Work trousers made from versatile fabric with flame-retardant treatment, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. Thanks to their waterproof and water vapor resistant properties, they offer extremely effective protection in adverse weather conditions. The garment also provides protection against small flames and limited splashes of liquid chemicals. The trousers are made from materials that provide antistatic properties. The polyurethane coating gives the fabric water-repellent properties, making it ideal for use in adverse weather conditions. The 3 pockets make them extremely functional and practical, allowing essential tools and items to always be within reach during work.

DETAILS

- 2 zippered side pockets, to ensure quick and convenient access to smaller items;
- Back pocket;
- Elasticated waist, allowing maximum freedom of movement without restrictions.

CLOSING

Zip covered by flap.
