

MICROLINES SERIES

MICROLINES blouson

MC6015

MATERIALS

98% PU coated polyester, 2% dissipative fiber, lining 100% FR cotton, padding 100% polyester.

GRAMMAGE

160 g/m²

FEATURES

Work blouson made from multi-purpose fabric, with flame-retardant treatment and polyurethane coating, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. Thanks to its properties of impermeability and water vapor resistance, it offers extremely effective protection in adverse weather conditions. It also ensures high resistance to heat dispersion, contributing to cold protection down to temperatures of -5°C. The garment also provides protection against small flames and limited splashes of liquid chemicals. The blouson is made with materials that provide antistatic properties. The polyurethane coating gives the fabric water-repellent properties, making it ideal for use in adverse weather conditions. The cotton lining provides softness on contact, while the padding makes it ideal even for the harshest climates. Reflective bands sewn on the chest and sleeves significantly increase operator visibility, improving safety during work activities. The foldaway hood is designed for use in adverse environmental conditions, such as rain or wind. When not in use, it can be stored inside the collar without creating bulk or compromising the operator's freedom of movement. The 5 pockets, including 2 water-resistant ones, ensure practicality and security for storing objects. The elasticated cuffs are designed to ensure an ergonomic and snug fit around the wrist, effectively limiting the penetration of liquids, wind, and other extreme atmospheric agents, contributing to the maintenance of the internal microclimate and the user's thermal comfort.

DETAILS

- Foldaway hood with drawstring, deployable as needed to provide protection from the elements.
- Detachable sleeves, for versatile wear based on working conditions.
- Two lower water-resistant pockets with flap and Velcro closure, ensuring quick and easy access to smaller items.
- Internal pocket with Velcro closure, for safely storing small valuables.
- Adjustable elasticated cuffs with Velcro, for an ergonomic closure that contributes to thermal comfort.
- Elasticated waist inserts, allowing maximum freedom of movement without constriction.

CLOSING

Two-way zip covered by a flap secured with snap buttons.

REFLEX

Reflective band on the cuff and around the chest.

AVAILABLE COLOURS

- Q5 - Dark blue

SIZES

- In stock
- On production
- Made to order
- Tailor made

FIELDS OF USE

- > Construction - road works
- > Chemical-pharmaceutical industry
- > Petrochemical industry
- > Logistics
- > Tertiary - trades

MAINTENANCE

Please follow the recommended washing instructions.

QUANTITY PER CARTON
