TECHNICAL SHEET

ALUMINIZED GARMENTS

Proximity trousers

MC6413X2

MATERIALS
Aluminized para-aramid fiber

WEIGHT
460 g/m²

FEATURES
Proximity trousers, made from aluminized para-aramid fiber, intrinsically flame-retardant, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. They offer integrated protection from flames, convective, radiant, and contact heat, as well as from small splashes of molten metal. The garment is designed to ensure protection and practicality in specialized operations. The presence of waist loops allows for the use of belts or accessories, while adjustable suspenders ensure stability and adaptability, preventing slippage and guaranteeing freedom of movement. Every detail is designed to combine functionality and safety. The garment is made with durable materials and refined finishes. These trousers are designed to offer freedom of movement and reliability in the most demanding operational conditions.

DETAILS
- Waist belt loops, to facilitate the use of belts for fit adjustment;
- Adjustable suspenders, for a secure and stable fit that prevents trouser slippage;
- Double stitching in high-stress areas, for increased strength and durability.

CLOSING
Front closure with snap buttons covered by a flap.
