

ALUMINIZED GARMENTS

FLAME RETARDANT blanket

MC6417

MATERIALS

Aluminized para-aramid fiber

GRAMMAGE

460 g/m²

FEATURES

Fire blanket, made from aluminized para-aramid fiber, inherently flame-retardant, designed to ensure maximum safety for those working in high-risk environments where exposure to multiple hazards is constant. The blanket is designed to provide protection and practicality in specialized operations. With a thickness of 1.1 mm and dimensions of 1.5 x 2 meters, it offers robustness and wide coverage, ideal for various emergency situations. In addition to isolating flames and heat, this blanket is designed to save objects by wrapping and protecting them from flames, rescue people trapped in burning locations, and extinguish small fires by smothering the flames.

QUANTITY PER CARTON

1

DETAILS

- High mechanical and thermal strength, due to its aluminized para-aramid fiber composition;
- 1.1 mm thickness;
- Dimensions 1.5 x 2 m, for extensive coverage.

AVAILABLE COLOURS

SIZES

	In stock
	On production
	Made to order
	Tailor made

FIELDS OF USE

- > Construction - road works
- > Heavy industry
- > Petrochemical industry

MAINTENANCE

Please follow the recommended washing instructions.
