

## LEATHER WELDING PROTECTION GARMENTS

### Leather trousers

#### MC6515

##### MATERIALS

1mm cowhide split suede leather

##### FEATURES

Protective trousers made from 1 mm thick suede split cowhide, designed to provide resistance to heat, sparks, and abrasions during welding operations and metalworking. Ideal for high thermal risk environments, compatible with other personal protective equipment (PPE). Certified to offer maximum protection for welders and those in related processes, it shields against molten metal splashes, radiant heat, and flames. The design includes belt loops, enabling the use of belts for a secure and personalized fit. Its robust construction ensures full leg protection without compromising freedom of movement, making it compatible with other personal protective equipment (PPE). Perfect for high thermal risk environments, it is a reliable solution for operators requiring both protection and comfort.

##### MAINTENANCE

Please follow the recommended washing instructions.

##### QUANTITY PER CARTON

10
