

Name: ESD trousers	Code: MC6721K1	MC67 INDUMENTI ALTA VISIBILITA SPIN
---------------------------	-----------------------	--

Description

FABRIC: Twill 97% cotton, 3% conductive fibre - weight 230 g/m .

- ~2 side pockets for quick and easy access to smaller items;
- ~2 multifunctional technical pockets with pen holders closed by flaps and Velcro, allowing you to store larger items without the risk of them falling out;
- ~2 back pockets closed by flaps and Velcro;
- ~Elasticated waistband allows for ample freedom of movement without restriction;
- ~Conductive fibres in the fabric dissipate electrostatic charges, preventing them from accumulating on the garment.

Work trousers made from multi-purpose ESD fabric, designed to ensure maximum safety for those working in controlled environments, reducing the risk of electrostatic discharge. The ergonomic design and breathable materials ensure comfort and freedom of movement.

The garment is made with materials that provide antistatic properties, thanks to conductive fibres. Designed to dissipate electrostatic charges and prevent damage to sensitive electronic components. The lightness of the fabric and the high percentage of cotton, combined with technical fibres, helps to perfectly balance protection and comfort, making the garment soft and breathable without compromising its functionality. In addition to worker safety, it helps to protect electronic devices that could be damaged by electrostatic charges.

The six pockets make it functional and practical, allowing you to always have the tools and items you need for work at your fingertips. The elasticated waistband allows for ample freedom of movement during your shift.

CERTIFICATION IN PROGRESS

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 as amended.

Read the instructions carefully before use.
Store in a cool, dry place, away from heat sources and away from light.

Before each use, carry out a visual check to ensure that the device is in perfect condition, undamaged and clean, and replace it if it is not intact.

Garments offer protection only for the part of the body actually covered and must therefore be integrated, depending on the intended use, with suitable PPE to protect exposed parts of the body (head, hands, feet). Where necessary, use appropriate respiratory and eye protection.

The safety features indicated are only respected if the device is regularly worn and fastened and in perfect condition.

Follow the recommended washing instructions.
