

ESD GARMENTS

ESD trousers

MC6721

MATERIALS

Twill 97% cotton, 3% conductive fiber.

GRAMMAGE

230 g/m²

FEATURES

Work trousers made from versatile ESD fabric, designed to ensure maximum safety for those working in controlled environments, by reducing the risk of electrostatic discharge. The ergonomic design and breathable materials ensure comfort and freedom of movement. The garment is made with materials that provide antistatic properties, thanks to conductive fibers. Designed to dissipate electrostatic charges and prevent damage to sensitive electronic components. The lightness of the fabric and the high percentage of cotton, combined with technical fibers, perfectly balance protection and comfort, making the garment soft and breathable without compromising its functionality. In addition to worker safety, they contribute to safeguarding electronic devices, which could be damaged by electrostatic charges. The 6 pockets make it functional and practical, allowing essential tools and items to always be within reach during work. The elasticated waistband allows ample freedom of movement during the work shift.

DETAILS

- 2 side pockets, to ensure quick and convenient access to smaller items;
- 2 multifunctional technical pockets with pen holders, closed with flap and velcro, allow for storing bulkier items without the risk of them falling out;
- 2 back pockets closed with flap and velcro;
- Elastic waistband, allows for ample freedom of movement, without restrictions;
- Conductive fibers in the fabric dissipate electrostatic charges, preventing their accumulation on the garment.

CLOSING

Zip covered by flap and button

AVAILABLE COLOURS

K1 - White

Q7 - Navy

SIZES
