Name: ESD t-shirt Code: MC6725K1 MC67 INDUMENTI ALTA VISIBILITA SPIN

Description

ØĐÜĐƯĐIÃUÃ . .Á53% cotton, 45% polyester, 2% conductive fibre - weight 180 g/m

"Álersey crew neck for a stable and comfortable fit.

Work T-shirt made from multi-purpose ESD fabric, designed to ensure maximum safety for those working in controlled environments by reducing the risk of electrostatic discharge. The ergonomic design and breathable materials ensure comfort and freedom of movement.

The garment is made with materials that provide antistatic properties, thanks to conductive fibres. Designed to dissipate electrostatic charges and prevent damage to sensitive electronic components. The lightness of the fabric and the high percentage of cotton, combined with technical fibres, help to perfectly balance protection and comfort, making the garment soft and breathable without compromising its functionality. In addition to worker safety, it helps to protect electronic devices that could be damaged by electrostatic charges.

The knitted crew neck offers a smooth feel against the skin, ideal for all-day comfort.

CERTIFICATION IN PROGRESS

The product has been designed and manufactured to comply with Regulation

(EU) 2016/425 as amended.
