TECHNICAL SHEET

ESD GARMENTS

ESD t-shirt

MC6725Q7

MATERIALS

Piqué 53% cotton, 45% polyester, 2% conductive fiber.

WEIGHT

180 g/m²

FEATURES

Work T-shirt made from versatile ESD fabric, designed to ensure maximum safety for those working in controlled environments, by reducing the risk of electrostatic discharges. The ergonomic design and breathable materials ensure comfort and freedom of movement. The garment is made with materials that impart antistatic properties, thanks to conductive fibers. Designed to dissipate electrostatic charges and prevent damage to sensitive electronic components. The lightness of the fabric and the high percentage of cotton, combined with technical fibers, perfectly balance protection and comfort, making the garment soft and breathable without compromising its functionality. In addition to worker safety, it contributes to safeguarding electronic devices, which could be damaged by electrostatic charges. The knit crew neck offers a smooth feel on the skin, ideal for all-day comfort.

DETAILS

• Round neck in jersey knit, for a stable and comfortable fit.
