<b>Name:</b> ESD sweatshirt	<b>Code:</b> MC6727K1	MC67 INDUMENTI ALTA VISIBILITA SPIN
-----------------------------	-----------------------	-------------------------------------

FABRIC: Brushed fleece 96% cotton, 4% conductive fibre - weight 300 g/m

- ~Zip fastening;
- ~High windproof collar for protection of the neck area;
- ~Elasticated knit cuffs and waistband for a snug fit that contributes to thermal comfort;
- ~Conductive fibres in the fabric dissipate electrostatic charges, preventing them from accumulating on the garment.

Work sweatshirt made from multi-purpose ESD fabric, designed to ensure maximum safety for those working in controlled environments by reducing the risk of electrostatic discharge. The ergonomic design and breathable materials ensure comfort and freedom of movement.

The garment is made with materials that provide antistatic properties, thanks to conductive fibres. Designed to dissipate electrostatic charges and prevent damage to sensitive electronic components. The lightness of the fabric and the high percentage of cotton, combined with technical fibres, help to perfectly balance protection and comfort, making the garment soft and breathable without compromising its functionality. In addition to worker safety, it helps to protect electronic devices that could be damaged by electrostatic charges.

The zip-up collar offers greater operational safety and a clean finish, as well as extra protection for the front of the neck. This protection is enhanced by the high windproof collar. The stretch jersey cuffs and waistband ensure an ergonomic fit that contributes to thermal comfort.

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 as amended.

Read the instructions carefully before use.  
Store in a cool, dry place, away from heat sources and away from light.

Before each use, carry out a visual check to ensure that the device is in perfect condition, undamaged and clean, and replace it if it is not intact.

Garments offer protection only for the part of the body actually covered and must therefore be integrated, depending on the intended use, with suitable PPE to protect exposed parts of the body (head, hands, feet). Where necessary, use appropriate respiratory and eye protection.

The safety features indicated are only respected if the device is regularly worn and fastened and in perfect condition.

Follow the recommended washing instructions.
