<b>Name: ESD coat</b>	<b>Code: MC6729K1</b>	<b>MC67 INDUMENTI ALTA VISIBILITA SPIN</b>
-----------------------	-----------------------	--

**FABRIC:** Twill 98% cotton, 2% conductive fibre - weight 145 g/m .

- 2 side pockets for quick and easy access to small items;
- Chest pocket with pen holder;
- Elasticated cuffs for a perfect fit and sleeve stability, even during work;
- Press stud fastening covered by a flap.
- The conductive fibres in the fabric dissipate electrostatic charges, preventing them from accumulating on the garment.

Work coat made of multi-purpose ESD fabric, designed to ensure maximum safety for those working in controlled environments, reducing the risk of electrostatic discharge. The ergonomic design and breathable materials ensure comfort and freedom of movement.

The garment is made with materials that provide antistatic properties, thanks to conductive fibres. Designed to dissipate electrostatic charges and prevent damage to sensitive electronic components. The lightness of the fabric and the high percentage of cotton, combined with technical fibres, help to perfectly balance protection and comfort, making the garment soft and breathable without compromising its functionality. In addition to worker safety, they help to protect electronic devices, which could be damaged by electrostatic charges.

The three pockets make the shirt practical and functional, as does the press stud fastening covered by a placket. The elasticated cuffs offer a perfect fit and sleeve stability throughout the work shift.

CERTIFICATION IN PROGRESS

The product has been designed and manufactured to comply with Regulation (EU) 2016/425 as amended.
