

BUMP CAP

Bump cap MAVERICK 5

MD1120Z9

FEATURES

A durable and lightweight safety bump cap, it effectively protects against side impacts without sacrificing comfort. Designed to protect the head from accidental impacts against hard, fixed surfaces, reducing the risk of lacerations or superficial injuries. It ensures lightness, comfort, and protection in low-risk environments. The internal ABS shell ensures robustness and reliability, while the side reflective strips increase visibility in poorly lit work environments. The perforated fabric promotes breathability, keeping the operator cool even during prolonged use. With a 5 cm brim, it offers protection and practicality, making it ideal for those seeking a high-performance and comfortable device.

WEIGHT

185 g

DETAILS

- 55% cotton, 45% polyester;
- Internal ABS shell offers high impact resistance and reliable protection, while keeping the cap lightweight;
- Side reflective bands for increased visibility;
- Perforated fabric on the sides ensures breathability and comfort even during prolonged use.
