

HELMETS

ABS 900 helmet

MD1215

FEATURES

ABS helmet, designed to ensure protection and maximum comfort during use. It provides protection against falling objects and impact resistance. It offers reliability, comfort, and safety in high-risk work environments. Electrically insulating, safe for live working up to 1000 V AC and 1500 V DC, offering protection against the risk of electric shock. Equipped with a six-point textile harness, it ensures even weight distribution and a stable fit. The design includes side slots for attaching earmuffs, a chin strap attachment, and a textile sweatband to keep the forehead dry. Size adjustment is simple and precise thanks to the adjustable and articulated ratchet adjustment system, allowing for quick adaptation to the user's needs. Ideal for work environments that require safety, practicality, and prolonged comfort.

FIELDS OF USE

- > Construction - road works
- > Petrochemical industry

CATEGORY

III -> This product is currently planned and produced to comply with Regulation (EU) 2016/425 and subsequent modifications.

MAINTENANCE

Store in a cool, dry place, away from heat sources and away from light.
Clean regularly with neutral detergents and water.
Do not use solvents.

QUANTITY PER CARTON

20

DETAILS

- Made of ABS, with a six-point textile inner harness for superior comfort, it offers high impact resistance and uniform pressure distribution on the head, ensuring greater safety and comfort even during prolonged use;
- Openings for attaching earmuffs allow integration with hearing protection devices, increasing workplace safety;
- Chin strap attachment ensures a stable fit even during movement or head tilting;
- Ratchet adjustment system for size regulation, allowing for a personalized and quick fit, improving comfort;
- Sweatband increases well-being during prolonged use by keeping the forehead dry.
