TECHNICAL SHEET

HELMETS

COSMOS helmet w/textile harness

MD1219S0

FEATURES

The protective helmet is made of high-density polyethylene, a material that ensures strength and lightness for comfortable use. It provides protection against falling objects from above and impact resistance. It offers reliability, comfort, and safety in high-risk work environments. It features an internal four-point textile suspension system, designed to ensure stability and protection. It has side slots for earmuff attachment, a chin strap attachment point, and a ratchet adjustment system that allows for easy size adaptation. The integrated sweatband enhances comfort even during prolonged use. Thanks to its practicality, it is ideal for visitors and for environments where reliable protection is required without sacrificing comfort. Circumference: 53-63 cm
