

HELMETS

NEW EVEREST helmet

MD1226Z9

FEATURES

Protective helmet made of high-strength PC/ABS material, ensures reliable performance even at low temperatures down to -30°C. It is approved for electrical insulation up to 1000 V in alternating current (AC) and 1500 V in direct current (DC), making it ideal for work near electrical installations. Equipped with side slots for attaching earmuffs and a front housing for lamps, it offers maximum versatility. The six-point textile internal harness ensures comfort and stability, while the fabric sweatband ensures breathability. The four-point chinstrap with chin cup increases safety, and the ratchet adjustment system allows for quick and precise size adjustment. Circumference: 53-63 cm

WEIGHT

480 grams

DETAILS

- Helmet made of PC/ABS, ensuring robustness and durability over time, even in demanding working conditions.
- Resistant to low temperatures down to -30°C, ensuring reliable protection in extreme environments and harsh climates.
- Approved for electrical insulation up to 1000 V AC and 1500 V DC, protecting the operator from electrical hazards, ideal for work near live installations.
- Wide textile sweatband, keeping the head dry and comfortable during long work sessions.
- Equipped with a chinstrap with four-point attachment and chin cup to always ensure correct positioning, guaranteeing stability and safety even during sudden movements or work at height.
- Six-point textile harness, distributing weight evenly, reducing pressure and increasing comfort.
- Size with adjustment wheel 53-63 cm, allowing for a personalized and quick fit, improving comfort and safety.

SHELF LIFE

5 years from the manufacturing date
