

MULTI-STANDARD HELMETS

VFR EVO firefighter helmet

MD1416

DETAILS

- Made of fiberglass-reinforced thermoplastic material, resistant to high temperatures and mechanical stress;
- Equipped with two visors, a transparent eye visor and a metallised face visor, providing complete and versatile protection;
- Equipped with a chin strap, for a stable fit.

SHELL

Fiberglass-reinforced thermoplastic material, resistant to high temperatures and mechanical stresses, ensures high multidirectional protection of operators' heads and guarantees protection of the skull, nape, frontal region, and the entire temporal and auricular areas. The shell's shape is enveloping and comfortable, with a rear drip edge. Laterally, a universal connection system allows the attachment of lighting devices and gas masks. Gold-plated plaque in a frontal position.

RETENTION SYSTEM

4-point retention system to ensure maximum helmet stability. Consisting of: Adjustable black flame-retardant fabric strap; Rectangular loop and adjustment buckles; Quick-release buckles.

SUSPENSION SYSTEM

4-point attachment and consisting of suspension straps and mesh with leather trim.

CHINSTRAP

Adjustable strap with quick-release buckle.

ADJUSTMENT

Rapid adjustment from size 52 to 64 with a rear ratchet adjustment system.

FACE SHIELD

Two screens, one ocular and the other facial.

NECK COVER

Aluminised fabric.

WEIGHT

1.540 g (with the two screens).

FEATURES

Firefighter helmet with a wraparound shell made of fiberglass-reinforced thermoplastic material, designed to withstand high temperatures and mechanical stress. It ensures multi-directional head protection, covering the skull, nape, forehead, and the temporal and auricular areas. This helmet is designed to ensure protection, comfort, and practicality in extreme conditions and is suitable for fighting structural fires in buildings, tunnels, and other structures, for interventions in forest and vegetation fires, and for technical rescue operations in emergencies other than firefighting, such as accidents or collapses. Thanks to its integrated eye protection systems, it ensures complete protection for firefighters and emergency operators. Laterally, it is equipped with a universal system for attaching lighting devices and gas masks. The 4-point chin strap ensures maximum stability, while the adjustable strap with a quick-release buckle and the rear ratchet adjustment system allow for rapid size adjustment (52-64). The helmet is equipped with two visors: a transparent ocular visor and a facial visor, available in transparent or metallized versions. The yellow MD15ZL reflective bands are available upon request.

AVAILABLE COLOURS

- L0 - Red
